NOTICE OF INCREASE FOR
WATER, WASTEWATER and STORMWATER RATES
BEGINNING JULY 2023

Dear Carson City Utilities Customer,

This letter is to inform you of the new rates for water, wastewater, and stormwater services that will go into effect for the July 2023 billing cycle. At the December 3, 2020, Board of Supervisors' meeting, the Board of Supervisors approved an ordinance adopting rate increases for the water and wastewater utilities and a new rate structure for the stormwater utility. These increases were as determined by the rate review study performed by Farr West Engineering and are necessary to cover operational and maintenance expenses for the utilities and infrastructure replacement needs. The rate review study was also overseen by the City's Utility Finance Oversight Committee through an almost year-long process.

Water service rates will see a 3% increase and wastewater service rates will see a 3.5% increase. For our average residential customer, a monthly increase of approximately \$1.72 for water and \$1.57 for wastewater should be anticipated, although actual impact will vary based on customer type and actual usage.

Stormwater rates will see an increase, which will vary depending on the customer size. Single-Family Residential is classified by the size of the house; the majority of customers will see an increase of \$0.60 per month.

Please see the rate sheet on the back for more information.

Please contact Carson City Public Works Utility Billing at 775-887-2355, ext. 2 with any questions.
